DEPARTMENT ASSOCIATION ACTIVITIES:

The students of the Management Association held on different activity programs under a Swachh Bharat Abhiyaan like the cleaning **Nearest pravaraRiver area**, and the **Blood Donation Camp**. We organized Blood Donation Camp in collaboration with Arpan Blood Bank, Sangamner. at our institute. It was a great experience for us, all students and staff participated in this camp by donating blood. Many students from Arts, Commerce, and Science College, MBA & MCA class donated blood. Also, we attained online activities like **PerikshapeCharcha by PM**, and **Fit India** in our Lab.

Student activities support the goal of teaching students to be responsible and give them opportunities that develop character, critical thinking, problem-solving, team building, and leadership skills. Research has shown a strong relationship between participation in student activities and academic achievement. Institute students made Valentine's greeting cards and sold the cards on the college campus.

CSR Activity-Students are well aware of the fact that if they want to grow in life, being a responsible citizen is a must. By being a part of corporate social activities, the chances of economic development increase as well. This helps the student as well as the place they belong to a great extent. The purpose of corporate social responsibility is to give back to the community, take part in philanthropic causes, and provide positive social value. Our institute students also provided "**purgrastnidhimadat**" to Kolhapur.

"Swachhata Hi Seva"

On the occasion of Rashtrapita Mahatma Gandhi's 150 Jayanti, we had planned "Swachhata Diwas" in our institute. So we planned to clean bank of Pravara River near Akole city.

With prior permission of Dr. Prashant Tumbbe, Director of ATE's Technical Campus, Akole, Students with faculty members reached river bank. The area of river bank is too dirty due to Ganesh Visarjan. It was full of various unwanted material. Student started cleaning the river bank with proper guidance of faculty members.

It was a great experience to us. The Director sir explained importance of cleaning and "Shramadnan". He also explained about eliminate use of plastic to dispose plastic waste with consultation of Nagar Panchayat administration. Students understand importance of cleaning and they also promised us that they should maintain their home and institute premises clean and neat.

Thanking You.

Regards,

Prof. S. B. Gajre.

Poster Presentation:

A poster presentation is a way to communicate your research or your understanding of a topic in a concise and visually engaging format. One advantage of presenting a poster is that it enables you to try explaining a concept in different ways, and see which explanation is most well-received. At the same time that you're honing your ability to communicate verbally, you can also hone your ability to present information visually in a simple way.

GROUP DISCUSSION:

Group Discussion or GD is a type of discussion that involves students sharing ideas or activities. Students in the group discussion are connected with one basic idea. Based on that idea, everyone in the group represents his/her perspective.

The purpose of a group discussion is not to win an argument or to amuse your classmates. The purpose of a discussion is to help each group member explore and discover the personal meanings of a text through interaction with other students.

Discussion is important to learning in all disciplines because it helps the student process information rather than simply receive it. Performing this event students are able to build their interpersonal communication skills, confidence in public speaking, team spirit, leadership abilities, social behavior, and problem-solving skills.

CLASSROOM PRESENTATION:

Many students dread presenting or struggle to structure and communicate their ideas successfully. Due to this reason institute provides the student an opportunity to express themselves. Faculty encourages and motivate the student for giving the presentation in front of other students in the classroom. Students are able to make their presentations and they are improving their presentation skills, Communication, Posture, and Body Language When Presenting.

FIELD VISIT:

A field visit is one of the best tools that we can use to provide every student with real-world experiences. Whether that's a field visit to the local grocery store, student participation contributes to their understanding of the world. When students leave the classroom, they see the connections between what is happening at the Institute and in the 'real world'. They begin to see that what they learn within the walls of the classroom can help them solve the problems they see in the world around them and can have a direct impact on who they become as people.

INDUSTRIAL VISIT:

Industrial visits have their own place of importance in a career of a student pursuing a professional degree course like an MBA, or MCA. In fact, it constitutes a part of the core course curriculum taught at the college. The objective of an industrial visit is to provide the students an insight into the internal working of companies. Today, we all perfectly understand that theoretical knowledge is just not enough for a successful professional career. It is here that by going beyond academics, industrial visit provides students a much more relevant practical perspective of the actual workplace and the larger world of business. All this makes the importance of Industrial visits all too evident, especially for students pursuing a professional management course like MBA, MCA.

Key points of importance of Industrial visits-

- Industrial visits provide the students with an opportunity to learn practically through interaction, working methods, and employment practices.
- It gives the students exposure to current work practices as opposed to theoretical knowledge being taught in their college classrooms.
- Industrial visits grant the students a great opportunity to interact with industries and know more about the industrial environment.
- Industrial visits are arranged by colleges for their respective students with the objective of providing them an opportunity to explore the different industry sectors like IT, manufacturing, services, finance, and marketing.
- Industrial visit helps students to combine their theoretical knowledge of business operations with the practical knowledge of its actual functioning.
