

Industrial Visit Report

Eglebyte Solutions Pvt. Ltd. and Sahyadri Farms Producer Company

Date: October 26, 2024

On October 26, 2024, Agasti Institute of Management, Computer Application and Research (AIMCAR), Akole organized an enriching industrial visit for its MBA and MCA students to two prominent companies: Eaglebyte Solutions Pvt. Ltd. and Sahyadri Farms Producer Company, both located in Nashik.

The visit commenced with a warm welcome from Miss Janhavi Vaishampayan, HR Executive at Eaglebyte Solutions Pvt. Ltd. She provided an overview of the company, highlighting its mission, vision, and the innovative solutions it offers in the IT sector. Following her introduction, Mr. Samuel Pinto, a Data Analyst at EagleByte Solutions Pvt. Ltd, delivered an insightful presentation on the company's various products and projects. He elaborated on the technological advancements the company employs and how they are shaping the industry landscape. Miss Laxmichhaya Patil, also a Data Analyst, further engaged the students by explaining the company's operational workflow. She described the Software Development Life Cycle (SDLC), detailing the roles of developers, testers, and the collaborative efforts of the Python and Java teams. This segment provided students with a clear understanding of how theoretical knowledge is applied in real-world scenarios.

The visit not only offered students valuable insights into the functioning of a tech company but also sparked discussions about career opportunities in the industry. Overall, it was a successful event that bridged the gap between academic learning and practical application.

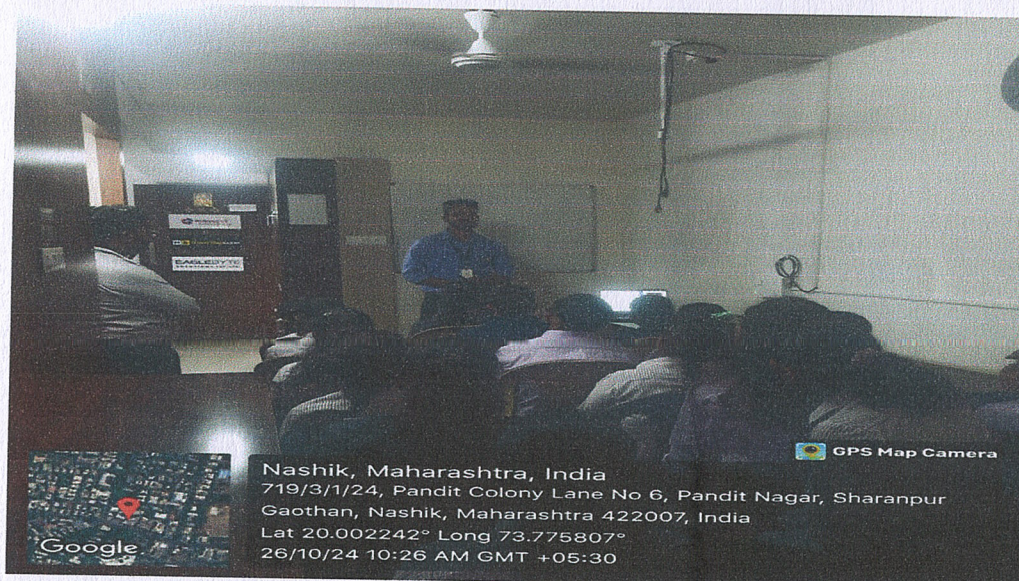

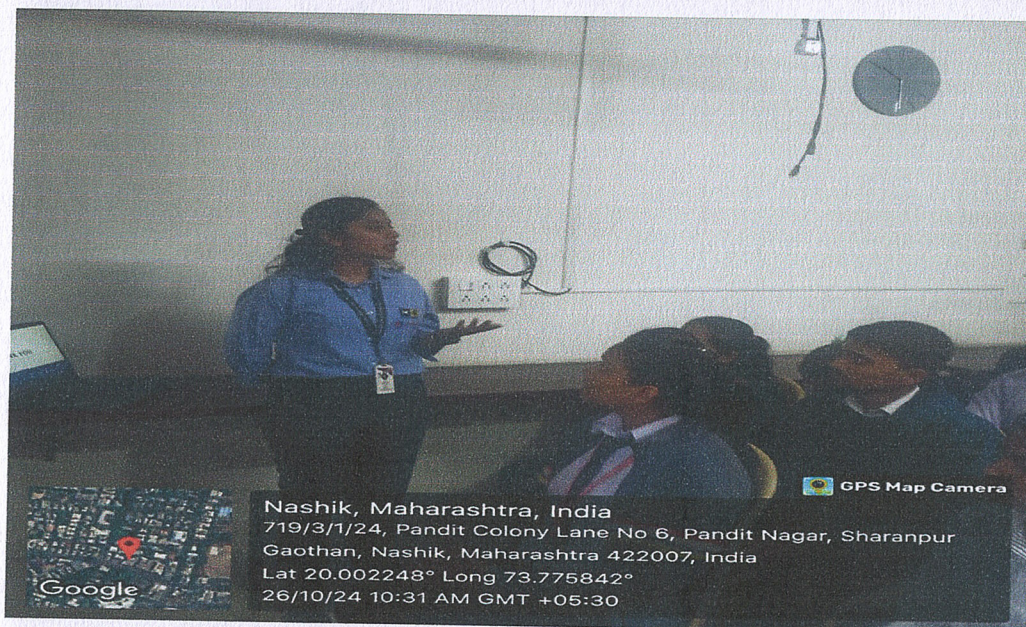

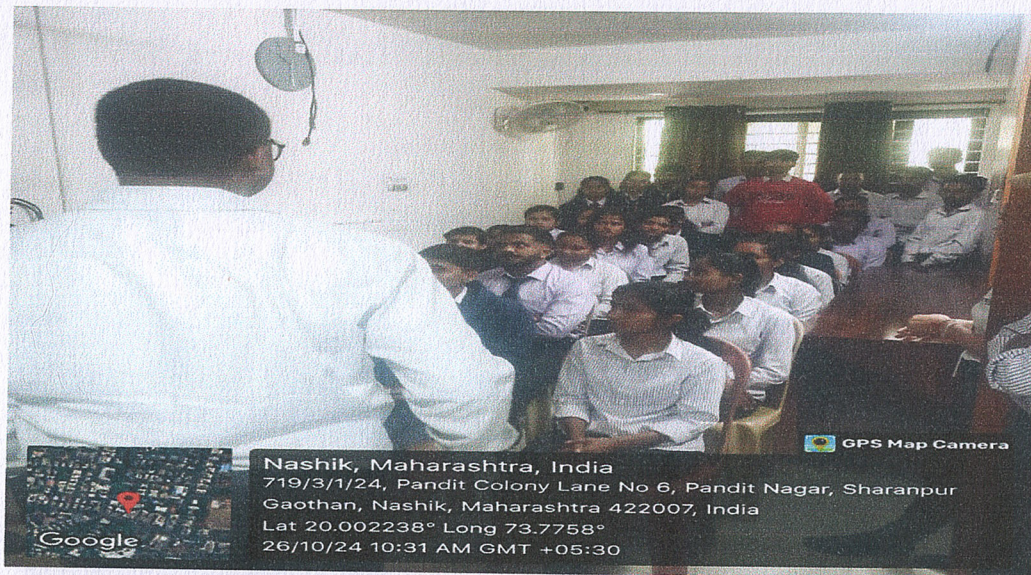

Sahyadri Farms Producer Company is visited by an industrial visitor. The purpose of this excursion was to provide students a hands-on understanding of the agriculture industry and its workings. Upon arrival, students were warmly welcomed by the company representatives; Mr. Ankit Wadghule provided an overview of Sahyadri Farms, its mission, and its significance in the agricultural landscape of Nashik. The representatives emphasized the company's commitment to sustainable farming practices and the benefits of cooperative farming. The students were then taken on a guided tour of the farm, where they observed various farming and export techniques and practices employed by the company. This included an in-depth look at crop cultivation, organic farming methods, and the post-harvest processes that ensure quality produce.

They elaborated on how the cooperative model benefits local farmers, enhances productivity, and promotes community welfare. The team also shared insights into market trends, supply chain management, and the challenges faced in the agricultural sector. Throughout the visit, students engaged in discussions and asked questions, gaining valuable knowledge about the intersection of agriculture and business management. The experience not only enhanced their understanding of the industry but also sparked interest in sustainable practices and entrepreneurship within the agricultural domain.

Overall, the industrial visit to Sahyadri Farms Producer Company and Eaglebyte Solutions Pvt. Ltd. was a successful and educational experience for the MBA and MCA students of Agasti Institute of Management, Computer Application and Research (AIMCAR), Akole.
